DESTRUCTIVE FIRE .- About 5 o'clock yes terday atternoon a fire broke out in the building occupied by Messrs. Smith & Simmons as a commission house and mercanile agency, and the upper portion by Mr. T. L. Dornin as a broom factory. The fire originated in the upper story, which was used for storage, and was caused probably by matches becoming ignited either by

mice or some other means. The building, owned by Mr. S. R. Borum, was pretty badly damaged by fire, which however, will probatily be covered by an insurance policy of \$3,000 in the National Insurance Company, of Baltimore.

tobacconists, in the adjoining building, were very badly damaged by smoke, fire and water. Their insurance we could not learn definitely, it being placed at \$3,000 with Messrs. Stewart & Tucker; at \$5,000 in the Fire and Marine; also, with Mr. A. M. Vaughan, to what amount we could not

MYSTERIOUS DISAPPEARANCE OF A CITIZEN of Petersburg.-On Tuesday evening last, about 7 o'clock, Mr. Lewis P. Crowder, residing on High street, left home with the intention of returning in a few minutes, promising his wife to accompany her to church that night. The hour for church arrived without the appearance of Mr. Crowder or any intelligence concerning him, although no serious apprehension was felt until it was found that he did not return during the night. Yesterday diligent search was instituted by his friends, but with no avail, and the whole matter of his disappearance is enveloped in the profoundest mystery. Mr. Crowder is quite a young man, and very recently married. Fears are entertained that he has been foully dealt with.-Courier.

surance Company, Mr. Miller lost about \$1,000 worth of stock, on which there was no insurance. The building used as a junk establishment, and owned by Mr. Muirhead, was insured for \$1,100, and the stock \$500, we

believe, in the Cuthbert agency. The fire was unquestionaly the work of an incendiary .- Petersburg Courier, 13th.

LAND SALES ON THE PENINSULA .- Colonel John Henly, of Williamsburg, informed us that land sales continue on the lower peninsula with unabated activity. Within the past week Aspinwall has bought a farm near Newport News for \$25,000. > WONDERFUL DISCOVERY OF SILVER AND LEAD IN COLORADO.—It will be seen by the following extracts from the Georgetown Colorado) Miner, of March 30, that a wonderful discovery of silver ore and lead has been made in the Burleigh tunnel. This tunnel is in close proximity to the Baltimore and Helmick tunnels, owned principally in this city and Baltimore, and

is evidence of the fortunes that awaits these enterprises: "Clear Creek county to-day occupies the head of the column of mining counties in the Territory of Colorado. "The doctrine that nature acts by uni-

form laws, and that true fissure veins are continuous in depth, is clearly demonstrasion be suppressed." ted by convincing, solid evidence. "Seven hundred feet below the surface of the earth the Burleigh tunnel, nine hun-

dred and thirty-five feet in length, has cut a noble true fissure vein, titteen feet in breadth, incased between walls of primitive "The breadth of the mineral in the whole

vein is about four teet. The highest assay French cruisers not condemned as prizes of yet obtained is 72 ounces in silver and 60 per cent. lead. "Twenty-three months since Charles

Burleigh, the inventor of the Burleigh drill and air compressors, commenced his greatest enterprise, the Burleigh tunnel. The mineral bearing portion of Sherman mountains has just been reached, and we may safely say that Mr. Burleigh and the few friends who stood by him financially are the owners of one of the richest inheritances for themselves and their posterity that ever mortal man owned.

"Mr. Burleigh, by his faith and firm belief in the doctrine of the fissure veins being continuous in depth, has achieved a success of incalculable benefit for himself, his partners, and the country at large.

"The laurels achieved by labor-the crown jewel of manhood-are far more enduring than those awarded to the greatest warriors whose deeds are recorded in the history of the world.

THE SYBIL OF TENAFLY .- There are two handwritings that come to the Golden Age which excite profanity in the fourth-story—one being Mr. Horace Greeley's and the other Mrs. Elizabeth Cady Stanton's, intruders were after him. Hodges asked if he (Smiley) thought they would take his world. In our issue of April 8th, Mrs. Stanton, in giving a picturesque account of one of Professor Moses Coit Tyler's addresses at the Michigan University, had a Captain-Generalship. Romero, his newlyparagraph which our printer, after three appointed Secretary, will not take possesspasms of pain, set up as follows: "Down sion of his office for the present. went the quid, up went the chaplain, up went the prayer, and now came the ever-welcome 'Amen.'" [SPECIAL TELEGRAM TO THE DISPATCH.] LEXINGTON, VA., April 13 .- About 13 clock last night the stable of Professor Harris, in rear of the University, was entirely consumed by fire. The University buildings would have been in great danger but for the favorable night. Professor Harris saved his stock and only lost his stable and provender. No insurance. A negro man named Charles Harris was suspected of being the incendiary, and arrested by a party of students. He had an examination before the Mayor to-day. He was

sent on for further trial, and refused bail. The dwelling of James W. Lackey, near Newport, was burned the other night, the in some other manner. The names of the witnesses, the material facts to be proved family barely escaping with their lives. Insured for \$1,300, which does not cover the loss. This fire was also the work of an incendiary.

Thomas Hodges, the horse-thief, who was hung by a mob in Augusta on Tuesday morning, was convicted of murder in Rockbridge, and sentenced to the penitentiary in 1864, but broke jail and escaped.
